

To affirm its commitment to decarbonisation of the public sector

is a member of the SEAI Energy
Decarbonisation Partnership Programme

We commit to:

- 1 Work with SEAI to achieve our 2030 and 2050 energy decarbonisation targets and deliver on the wider Public Sector Mandate.
- 2 Embed an energy management programme appropriate to the size of our organisation.
- 3 Develop a project pipeline towards 2030 energy decarbonisation targets and plan strategically towards achieving net zero by 2050.
- 4 Report annually on our organisation and building stock energy performance.
- 5 Work with SEAI to undertake an annual review of our energy management and energy decarbonisation actions.
- 6 Report our energy efficiency and greenhouse gas emission reductions progress annually to SEAI.
- 7 Consider energy efficiency and greenhouse gas emission reductions when procuring and designing equipment and facilities.
- 8 Collaborate with SEAI to communicate the benefits of energy-related climate action.

William Walsh
CEO Sustainable Energy Authority of Ireland
